INN on LAKE  
GRANBURY

### *The Accommodations*

Each guestroom or suite is luxurious and unique – some with stone fireplaces, others with relaxing sitting areas, outside porches or balconies with views of the lake. All rooms have an oversized desk and a ceiling fan. Feathered beds are wrapped in the finest linens and draped with pillows. The decor is both casual and elegant – the main house is more Texas traditional with red oak hardwood floors, stained wood, with Hill Country accents and European decor.

Our suites have wonderful lake views, and the decor is more contemporary and modern than in our main house rooms, with a loft feel and spiral staircase to an up-stairs sitting area in two of them. Each room or suite also has a private bath with a large jetted tub or shower with steam unit and body jets and luxurious guest robes and extra pillows for your comfort.

### *The Grounds*

The Inn on Lake Granbury offers its guests “getaways” without leaving the property. The Inn provides the atmosphere of a private lakefront vacation home with the benefits of bed and breakfast lodging, personal concierge services and special event planning assistance. Each gathering point on the grounds of the B&B is like a private oasis, with its salt pool with waterfall, landscaped sitting areas, and ornamental trees, seasonal flowers and native grasses.

For those cooler days or evenings, cozy up a fire pit close to the water’s edge, or relax in our outdoor hut tub. To beat the summer heat, relax by the flagstone-encased pool and enjoy the soothing waterfall and tanning ledge - the perfect location for a small gathering or for a secluded place out of the sun. The stone amphitheater overlooking the lake or the poolside deck are ideal places to relax, or have a casual business meeting, or an intimate reception, perhaps following a full day of meetings or shopping on the Square.
